Precipitation probability							
20%	30%	30%	20%	20%	60%	60%	40%

Forecast for Sunday 14 Mar 2021

Weather: A few clear spells overnight but also one or two wintery showers especially for western peaks. During the morning it will be a mixture of cloud and a few light showers, a period of more definite rain or sleet in the afternoon is likely and quite cloudy with this. Rain clears through in the evening.

Chance of cloud free mountain/hill tops above 600m: 40%, cloud will lower below summits in showers and during rain in the afternoon, some good views from the tops more likely in the morning.

Visibility: Cloud bases are likely to lower to 5-600m at times in showers and around 4-500m in rain in the afternoon. Visibility below the cloud will also become moderate or poor for a time. Out with rain and showers there will be period when the cloud is well above the summits affording some views across the hills.

Freezing Level*	700m	800m	800m	800m	800m	1000m	1400m	1400m	1200m

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Freezing level rising towards the summits with precipitation turning readily to sleet or rain rather than snow on the hill tops. Still a significant wind chill in the strong westerly winds, gales possible on the tops.

Recent rainfall: measured at Neuadd: altitude 353m

Recorded at	Last 24 hours:	Last 48 hours:	Last 72 hours:
15:00 on Sat 13 Mar 2021	16.2mm	23.2mm	38.4mm

Forecast for Monday 15 Mar 2021

Weather: Some cloud breaks are likely overnight and during Monday morning. Cloud occasionally thickening enough to give a few spots of rain but there should also be some brighter or sunny spells during the day. More in the way of cloud later in the evening.

Maximum wind: Northwesterly 20mph with gusts 25-30mph.

Chance of cloud free mountain/hill tops above 600m: 70%, cloud generally above the tops, perhaps later in the day cloud beginning to shroud the hill tops.

Visibility: Cloud bases will generally be above the tops however at times there will be patches of cloud around 500m. Visibility will generally be good during the day with some views across to other tops.

Temperature: **Valleys:** Plus 3 rising to 7 Celsius.
At 600m: Plus 4 Celsius
Freezing level: Around 1000m rising well above summits.
